

I live and breathe what I do

Nikki Davis, President
Certified Industrial Hygienist

DAVIS INDUSTRIAL HYGIENE

live and breathe what we do

*We “live and breathe” industrial hygiene
each and every day. No matter what
the challenge, we find ideal solutions
and we find it fast.*

RESPIRATORY HAZARD ASSESSMENT • NOISE EXPOSURE ASSESSMENT
PROGRAM DEVELOPMENT • TRAINING DEVELOPMENT AND DELIVERY

WHY USE US?

We focus extensively on industrial hygiene and as a result we have accumulated the breadth and depth of industrial hygiene experiences to create optimal outcomes.

We understand that many of our clients are under tremendous stress to get or keep their operations moving with all stakeholders on side. Our expertise helps us find solutions quickly.

We firmly believe that each project should only be as big as it needs to be. This helps ensure quick and cost efficient solutions while safeguarding the health and safety of all those involved.

We have intimate knowledge of the OHS legislation and the DIH team includes two Certified Industrial Hygienists.

TESTIMONIAL

I would rather deal with multiple suppliers that are really good at what they do then deal with a generalist that are only somewhat good at many things. That's why I like using DIH. They specialize in industrial hygiene so they have to be good at what they do to survive as a company. This benefits me since I get very knowledgeable people that find great solutions for me fast.

– Large Scale Industrial Construction Project Manager
